

The Ballad of Lily

Steam Powered Giraffe

Some girls say all they need is dreaming
But some girls say they ain't got time
But for those who dream
Well they just keep dreaming
We've got to chase the dream to be happy

Do you wanna sail into the sky?
Soar across the stars?

Well, I knew a girl, and her name was Lily
But her Daddy called her something rather silly
He called her by a name which matched her art
Come on and fly with me, fly with me,
my little Airheart
