

Gates of Heaven

Steel Attack

I was alone against the world
Unwanted, abandoned, left to die
Forgotten, mistreated and abused
Lord I wonder why?
I had to give my life for the sins of human kind

Tears in my eyes mixed with the lashing rain

Take me to back to the gates of heaven
The road is so painful and long
Back to the gates of heaven
It feels like forever, I wonder why????

I see baleful, dark eyes, staring at me
I can not hide?
My father in heaven
I've never done any harm to anyone!
I gave my blood
I gave my flesh, I ask for help
You turn around

The sins of human kind
Tears in my eyes mixed with the lashing rain

I have to give my life for the sins of human kind
Tears in my eyes mixed with the lashing rain
