

## I Bow My Head in Shame

Steel Attack

Let me be, leave me alone  
You dance of the edge of  
The border of wrath you are blind  
To blind to see the anger deep inside  
It's taking control  
I can't help what I become

There's no tears in my eyes  
Even though I am crying

All is black out of control  
Hidden deep within my soul  
The anger in me is not mine  
Another me - another time

Now it all begins again  
Starting all over at  
The point where it died  
Staring eyes  
I bow my head in shame  
For what's done  
I am the one to blame

There's no tears in my eyes  
Even though I am crying

All is black out of control  
Hidden deep within my soul  
The anger in me is not mine  
Another me - another time
