

## Reality Unknown

### Steel Attack

I hear voices in my head as i lay my soul to rest  
This can not be real  
In the future you'll be there  
Come with me and you'll be free  
This can not be real

I am alone  
I must be strong

Come take me  
Come touch me  
Come take me higher than the sky

I can not change my life i'm at the bottom of this  
world  
Come take me away  
Is this the way it all should be  
So this is reality  
Now i can see

I am alone  
I must be strong

Come take me...

Higher than the sky  
This will be the one

I am alone  
I must be strong

Come take me...
