

Keep On Lovin' You

Steel Magnolia

Maybe life has got you rundown
I think it's time Girl that we slow down
So take a look, it's almost sundown

So why don't you lay right here
Let me just ease your mind
I'm givin' you all my time
I'm gonna keep on, keep on loving you
Strong and slow, the way that you want me to
Maybe my whole life through
I'm gonna keep on, keep on loving you

When that morning sun is dawning
Baby both of us should call in
'Cause we've got too much love to fall in

So why don't you lay right here
Let me just ease your mind
I'm givin' you all my time
I'm gonna keep on, keep on loving you
Strong and slow, the way that you want me to
Maybe my whole life through
I'm gonna keep on, keep on loving you

Why don't you lay right here
Let me just ease your mind
Give you all my time
I'm gonna keep on, keep on
Strong and slow, the way that you want me to
Baby my whole life through
I'm gonna keep on, keep on,
Strong and slow, the way that you want me to
Maybe my whole life through
I'm gonna keep on, keep on loving you
Soft and slow, the way you want me to
Maybe my whole life through
I'm gonna keep on, keep on, keep on loving you

I'm gonna keep on, keep on loving you.
