

Without You

Steel Magnolia

I'm nothin' without you
A crumblin' statue without you
I'm no-one, just someone
Lost in the moment
Searching for something
Life's nothing without you
I lay here waitin' for you
When I call you, no answer
Don't blame you, it hits me, I miss you
God I miss you

I need to know I'm on your mind
The way I know that you're on mine
The way I know the stars will shine
And that the sun will light the sky
I need to feel you

Beside me, right by me
Never passing by me
I want you to hold me, console me
When I feel I can't control me
My emotions take over,
Tell me it's not over
Never will be
Well, I know I'm guilty

I need to know I'm on your mind
The way I know that you're on mine
The way I know the stars will shine
And that the sun will light the sky
I need to feel you

I need to feel
I need you
Come on, come on baby
Come on, come on baby

I need to know I'm on your mind
The way I know that you're on mine
The way I know the stars will shine
And that the sun will light the sky
I need to feel you

I'm nothing without you
A crumblin' statue
Without you I'm no one
