

# Bodyguard

## Steel Pulse

Every time you meet the public  
You get scared and you start to panic  
A who got a gun  
A who got a bomb  
A who got a knife  
A who's gonna lose their life  
So-called leaders with deceitful faces  
Corruption in a high place  
Your hands filled with bribes  
Your mouth pours out lies yea  
Cause of all oppression now  
Running for protection

Bodyguard I wouldn't like your job  
Snakes in the grass say they know not God  
Polytricksters drinking human blood  
A concrete heart can hold no love  
I just can't sorry for the bodyguard  
Bullet-proof vest strapped to your chest  
Under your collar is getting hot  
A who got a gun  
A who got a bomb  
A who got a knife  
A who's gonna lose their life

Bodyguard I wouldn't like your job  
Snakes in the grass say they know not God  
Polytricksters drinking human blood  
A concrete heart can hold no love  
You fretting, you sweating, you checking  
Hey hey no feel no way  
I just can't sorry for the bodyguard  
A who got a gun  
A who got a bomb  
A who got a knife  
A who's gonna lose their life

Bodyguard I wouldn't like your job  
Snakes in the grass say they know not God  
Polytricksters drinking human blood  
A concrete heart can hold no love  
I just can't sorry for the bodyguard

So watch it all you presidents Boo  
Heads of government Boo  
Mash down parliaments Boo

I just can't sorry for the bodyguard  
I just can't sorry for the bodyguard  
All that fretting  
All that checking  
All that searching for assassin hey!
