

Heart Of Stone

Steel Pulse

Heart of stone got no soul
Want I fe beg fe what I own
No trust dem as far as the blind can see
Chant dem down

Transferred to other lands drawing out plans
Which results into evil deeds and destruction
What you try to hide ain't top secret
Keeping up slackness of the most foul
We the people who feel it
Who feels it and sees it dislike it and curse it
Get bumped off
Licensed to kill

Heart of Stone
Heart of Stone

Corrupted lives are lives we don't wish to lead
The fruit of peace is what we love to pick and eat
The seeds we intend to plant and grow oh
You don't like what I and I man have to say so
You bump I off
Licensed to kill

So be it, the seeds you will water with our blood

Heart of stone got no soul want I fe beg fe what I own
Leave I alone, blood, chant dem down!!!
