

# New World Order

Steel Pulse

I'm in an angry mood yeah  
Got an attitude, oh yeah  
Things are overflowing  
In dis ya melting pot  
Justice has been stolen  
From the have nots

I've come to a conclusion  
It's time for a revolution  
It's the only solution  
That brings about a change yeah  
I've lost all my patience  
Pressured by this violence  
I refuse to be silent  
And buckle up in pain

Things are overflowing  
In dis ya melting pot  
Justice has been stolen  
From the have nots

In dis ya New World Order  
Well dem totally out of order  
New World Order  
Say dem totally out of order  
Oh yeah oh wow wow

So much exploitation  
Upon the third world nation  
You've appointed yourself  
The policeman of the world  
Talking about lifting sanctions  
For your satisfaction  
Robbed of our silver and gold  
Our diamonds and our pearls

You go a dat man country  
Make war and kick him out  
Oh it's the same old story  
Bun down the great white house  
Woe woe

Change, yes we want change  
I'm in an angry mood  
Got to rearrange  
I've got an attitude  
Yes we want change  
Oh I'm so VEX now

Chase dem out  
Kick dem down, drive them way out of town  
This ya rebel time is now  
This ya people nah go bow

Mess up and out of order  
Mash up and out of order  
Bruk up and out of order

Muck up and out of order

Totally, overly, utterly facety

All that gwaan

We know dem a folly order

Totally out of order
