

# No More Weapons

Steel Pulse

We don't really need x 2  
Yeah! No No

There's no time to beat around the BUSH  
Now all the world is living in fear  
The consequence a great disaster zone  
The thought alone I cannot bear  
And now that war has raised its ugly head  
And all I can predict is war yeah!  
This claim for power paints the city red  
I isolate the Status Quo.

We no want no weapons (no way) of mass destruction  
We no want no weapons of mass destruction  
No we no really need  
No weapons, no weapons no

This has got to be the final conflict  
Bestowed upon humanity  
So much for a global coalition  
A false sense of security  
We are just pawns in the scheme of things  
No matter what our race or creed  
Survivors of this holocaust  
We international refugees

We no want no weapons (no way) of mass destruction  
We no want no weapons of mass destruction  
We no want no weapons of mass destruction  
No no no lethal weapons  
No no lethal weapons  
No weapons no weapons

We don't want, no no  
We don't want x 3

Ah we don't want none in the north and none in the south  
And none in the west and east and not to illing the prince Of peace, lord  
We don't war on them, we don't war on myself, we don't war On many disease a  
nd not to illing the prince of peace, hey  
For in need of a save we  
The Blood drop through time, through the fog, and it over  
Only King Selassie can save we  
Nation against nation the world is in need of a change, Hey  
Father, I pray thee: please give a hand cause it seems Like A total destruct  
ion is the only solution  
Nation against nation the world is in need of a change

We no want no weapons (NO) of mass destruction  
We no want no weapons (no way) of mass destruction  
We no want no weapons of mass destruction

This crave for power  
Is one disaster, destruction's in the air  
These ego trips, by heads of states, who giveth not a care  
For the children, save the children  
The future's in despair

No no no No no  
We no want no weapons no  
We no want no weapons no
