

# We Can Do It

Steel Pulse

It's time to put away our  
Guns and ammunition  
We can do it if we try  
I tell you what the reason  
Causing all the friction  
Discrimination is a crime

We can do it  
If we try  
Let war and hatred  
Pass us by

We can do it if we try  
Let war and hate just pass us by  
We can do it if we try  
Right now! Ah ha ha

My generation  
God help the children  
My generation  
God help the children

If parents only had more  
Time for understanding  
The youth won't have to turn to drugs  
There's only one solution  
Causing all the problem  
We talking universal love

We can do it  
If we try  
Let war and hatred  
Pass us by

We can do it if we try  
Let war and hate just pass us by  
We can do it if we try  
Right now! Ah ha ha

My generation  
God help the children  
My generation  
God help the children

It's time to stop and think about  
What you done to others  
And if it's good we'll go ahead  
And JAH will sure protect you  
But if it's bad just watch your step  
Cause you will surely stumble  
Remember who inherit the land  
The meek and very humble

My generation  
God help the children  
My generation  
God help the children

Wheel and turn Mister Banton  
Part of the original ghetto crew

Yes David, all the way from Handsworth  
Wha you a sey Boss?

GWAAAAARN

Easy. Stop the fuss and stop the fight  
I'm positive that we can do it

Equal rights to Black and White  
It ain't so hard to do it

Live as one under moon and sun  
Everyone I know that we can do it

Open you heart and live as one  
I know that we can

We can do it  
If we try  
Let war and hatred  
Pass us by

Throw down your guns and pick up the love  
Yes I know that we can do it  
Throw down your guns and pick up JAH love  
Yes I know that we can do it
