

Diamonds In The Sky

Steel Train

We are, we are diamonds in the sky
We float around
Stick together, touch no ground
You meet me, meet me in the place that makes you laugh
Whatever time we can collapse

We are on holiday forever

We got, we got miles and miles of world to run around
What we got is old gold and thats alright
She is, she is right here in everything we do
Look she is walking above you

She's on holiday forever

I had a lot, i was living
I had some lies, i live them off
I had a lot, but now i really got it all
Now that, forever diamonds we are blue

You find me, you find me in the place that makes you laugh
Whatever time we can collapse
Cause we are, we are diamonds in the sky
We float around
You cant pin us to no ground
