

Touch Me Bad

Steel Train

Alright -
I wake up in the morning and I
Don't ever stop, ever stop
I don't know what went wrong
Digging up an old wound
Never to leave it
She's like a devil,
And I saw a demon
And I don't know what was real

Where are you going?
Do you even know?
I will follow you
'cause I feel bad for nothing anymore
I spent many years
Counting dots
Kissing walls
Saying prayers
Clicking jaws
Eating Colors
Nothing black
Wouldn't touch it,
Touch me, bad!

Goodnight -
I go to bed dreaming I'll change
But I never move, never stop
I don't know what went wrong
Digging up an old wound
Never to leave it
She's like a devil--No! I saw a demon
And I don't know what was real

Where are you going?
Do you even know?
I will follow you
'cause I feel bad for nothing anymore
I spent many years
Counting dots
Kissing walls
Saying prayers
Clicking jaws
Eating Colors
Nothing black
Wouldn't touch it,
Touch me, bad!
Tunnel eyes
Through a tube
Lights out
Goo goo goo ga joob!

Regular man -
You're tied to a track and you
Can never turn back
I hear you sing
A train coming fast
Blood whistle blowing

You're gonna crash!
I believe I never should have done this
But I want to believe me,
I want to believe me
And I've done so much
When I was wrong

Where are you going?
Do you even know?
I will follow you
'cause I feel bad for nothing anymore
I spent many years
Counting dots
Kissing walls
Saying prayers
Clicking jaws
Eating Colors
Nothing black
Wouldn't touch it,
Touch me, bad!
Tunnel eyes
Through a tube
Lights out
Goo goo goo ga joob!
Come on Jersey
Sing it loud
I spent many years flipping
OUT!
