

# The Deeper the Night

Steeler

Another lonely night  
An another lonely road  
An endless way to go  
Don't have to hide my feelings... lying awake on my own

The gypsy just no one could tie down  
All of a sudden... there's a yearning for you  
But the wheels keep on rolling  
Through endless nights... and other towns

Oh how I wish it could end here  
Oh how I'm longin' for your touch  
Seems to be years I'm spendin'... alone

[Chorus:]

The deeper the night (deeper the night)  
The deeper the night (deeper the night)  
The more I'm searchin' for... a reason why?  
And the further I move... I realize  
Something's dying... inside  
Something's dying... inside

The screams for encores are reduced to zero  
Compared to that voice on the telephone  
The heat of a thousand spotlights  
Nothing, it's nothing... to the warmth I've known... so well

Before reachin' out for glory  
Before reachin' for the stars  
Sometimes I wish I could go back... again

[Chorus:]

The deeper the night (deeper the night)  
The deeper the night (deeper the night)  
The more I'm searchin' for... a reason why?  
And the further I move... I realize  
Something's dying... inside  
Something's dying... inside

[Guitar Solo]

[Chorus:]

The deeper the night (deeper the night)  
The deeper the night (deeper the night)  
The more I'm searchin' for... a reason why?  
And the further I move... I realize  
Something's dying... inside  
Something's dying... inside

Dying inside...
