

Freedom is all about living a dream
You gotta cut the pain stop taking it in
Fear is a callin' it's a killer of all
It's making me sick I can't take no more
Heads up in life it's a fucked up game
It's easy to fall in and live against the grain
Then you're stuck in the middle of Heaven and Hell
Yeah, you get stuck in the middle of Heaven and hell

Sun comes a rising
My faith is my fortune
I patiently breath in my soul
under my wounds in the depth of frustation
Visions of pain I have sewn

Freedom is all about living a dream
You gotta cut the pain you gotta cut the pain
Stop taking it in

Sun comes a rising
My faith is my fortune
I patiently breath in my soul
under my wounds in the depth of frustation
Visions of pain I have sewn
Hear me i'm calling for i've fallen deep now
Only my self i'm to blame
Time is my anchor and Hell comes to love
Twisting the truth of who I am
