## Say No More

Steelheart

Show me live my friend You say you know it so well You say it's easy, I'm just blind And trust my life in faith

No no more, no more, say no more, say no more

Oh give me strength my friend Oh give me hope, a hand

Don't criticize me Don't patronize me Don't try to change things You don't understand Yeh sometimes I just sit back And watch the whole damn world go by I can see so many people scrambling Just to stay alive Worried about everyone else but themselves
