

Shine a Light for Me

Steelheart

I've been tracing pictures flashing through my mind
A taste off red they leave on my tongue
And spilling quickly with hands of time
Through cuts that make me who I am

I've gone to the edge and I've seen you there
With a twisted freedom in your arms
I fell of thinking with the sorrow rain
Have I come
To my...

Love, take me there
Shine a light for me
My love show me where
Freedom is for free

Now break this system that is burning through
And separating trust with all our anger
It's so hypnotizing we don't know what's true
Have I come, come to my end?

Love, take me there
Shine a light for me
My love show me where
Freedom is for free

Yeah, time will be gone
And time will free our soul..
