

The Illusion

Steelwing

I am the one inside your mind
A master of illusion in both space and time
Throw me in chains and leave me to drown
Still I'll break free and I will stand my ground
These simple contraptions are no match for me
I've been searching so long for a way to succeed
Infernal visions of my rebirth
From the man who shed light on the face of the earth

An illusion
Twisted confusion
Only one thing on my mind and it drives me insane
Untameable power
Enter the hour
The last chapter of my life will be written tonight

No one shall stand in my way

[Lead: Rockbag]

I have found the key to illusions you can not conceive
I'm not bound, I'm further ahead than you'll ever believe

[Lead: Vega]

Electrical madness, an infernal scream
Unleashing the wrath of the monstrous machine
Witness the power of my hellish device
A stunning performance to the world's eyes
Memories of death they all reappear
My heart it is pounding but I know no fear
My last moments of sanity
Wiped away by the power consuming what's me

An illusion
My execution
Lightning burning inside my veins
Electrical, thunder
The world's seventh wonder
Lights out, I disappear and return
I'm the man who's back from the dead!
