

# Come Back Baby

Steely Dan

I don't like waiting for a knock on the door  
I don't like wondering why  
I got no mercy for a man and his tears  
He's just living a lie  
I got a feeling like I'm losing my cool  
That's no way to be  
You got me crying, got me playing the fool  
That's what you're doing to me

Ohhh, you gotta come back baby  
I don't want to say how long it's been  
Five days and I gotta know now  
Come back baby  
I don't want to live alone again  
My old man never told me how

I don't like lying all alone in my bed  
Nobody calling my name  
I can't say thank you for a kick in the head  
But I need you just the same  
See me settin
