

Parker's Band

Steely Dan

Savoy sides presents a new saxophone sensation
It's Parker's band with a smooth style of syncopation
Kansas City born and growing
You won't believe what the boys are blowing
You got to come on man
And take a piece of Mister Parker's band

You'll be riding by, bareback on your armadillo
You'll be grooving high or relaxing at Camarillo
Suddenly the music hits you
It's a bird in flight that just can't quit you

You got to come on man
And take a piece of Mister Parker's band

We will spend a dizzy weekend smacked into a trance
Me and you will listen to
A little bit of what made the preacher dance

Bring your horn along and you can add to the pure confection
And if you can't fly you'll have to move in with the rhythm section
Either way you're bound to function
Fifty-Second Street's the junction

You got to come on man
And take a piece of Mister Parker's
Clap your hands and take a piece of Mister Parker's
Come on man and take a piece of Mister Parker's band
