Savoy sides presents a new saxophone sensation
It's Parker's band with a smooth style of syncopation
Kansas City born and growing
You won't believe what the boys are blowing
You got to come on man
And take a piece of Mister Parker's band

You'll be riding by, bareback on your armadillo You'll be grooving high or relaxing at Camarillo Suddenly the music hits you It's a bird in flight that just can't quit you

You got to come on man
And take a piece of Mister Parker's band

We will spend a dizzy weekend smacked into a trance Me and you will listen to A little bit of what made the preacher dance

Bring your horn along and you can add to the pure confection And if you can't fly you'll have to move in with the rhythm sec tion

Either way you're bound to function Fifty-Second Street's the junction

You got to come on man
And take a piece of Mister Parker's
Clap your hands and take a piece of Mister Parker's
Come on man and take a piece of Mister Parker's band
