

# How Does It Feel

Stefanie Heinzmann

I guess that it's over now  
You fell out of love somehow  
You said you thought  
I'm not the one  
You're movin' on  
You needed time to breathe  
I just can't believe this

Now I sit and stare out of the window  
And while the tears run from my eyes  
I wonder if they'll ever dry

How does it feel?  
When you're all by yourself  
Is your heart unbroken?  
Is there somebody else?  
How does it feel?  
Now that I am gone  
Baby I'm still broken  
Your heart was my home

It's gonna hurt a while  
And I'm gonna need some time  
We're born alone  
We die alone  
And in between we need some company  
I thought you were meant for me

Now I sit and stare out of the window  
And while the tears run from my eyes  
I wonder if they'll ever dry

How does it feel?  
When you're all by yourself  
Is your heart unbroken?  
Is there somebody else?  
How does it feel?  
Now that I am gone  
Baby I'm still broken  
Your heart was my home

Saw your friends today  
And heard them say  
You're doing just fine  
And I wish I could get you off my mind  
Is there a better sky?  
And while the tears run from my eyes  
I wonder if they'll ever dry

How does it feel?  
When you're all by yourself  
Is your heart unbroken?  
Is there somebody else?  
How does it feel?  
Now that I am gone  
Baby I'm still broken  
Your heart was my home

How does it feel?  
When you're all by yourself  
Is your heart unbroken?  
Is there somebody else?  
How does it feel?  
Now that I am gone  
Baby I'm still broken  
Your heart was my home
