

Stop

Stefanie Heinzmann

When I get my nails done and hair right
and when I've got a new dress

Know about your favourite perfume
gonna put it on and make you senseless

I know you see me as little girl
cute and shy and playful

But now the time has come around
and I'm gonna show you what I'm made of

And I bet I drive you crazy

Baby, just stop
Baby, don't go
there's so much more I wanna show
Baby, just stop
Just take a look
There's no other methods in my book
Cause you haven't seen
the best of me
I'm a woman and not just the tears
I won't make you please
Just stop, right now

Don't need to mention your attention
has moved in my direction

And from the look in your eye
I'm an object of affection

Don't get it wrong there's more in me
than just a pretty thing to look at

I got a heart of gold and I know
that I want a man who wants to keep it

But for now I drive you crazy

Baby, just stop
Baby, don't go
there's so much more I wanna show
Baby, just stop
Just take a look
There's no other methods in my book
Cause you haven't seen
the best of me
I'm a woman and not just the tears
I won't make you please
Just stop, right now

After all is said and done
You've always been the one

And I bet you noticed me now, now

Baby, just stop
Baby, don't go
there's so much more I wanna show
Baby, just stop
Just take a look
There's no other methods in my book
Cause you haven't seen
the best of me
I'm a woman and not just the tears

I won't make you please, please, please

Baby, just stop
Baby, don't go
there's so much more I wanna show
Baby, just stop
Just take a look
There's no other methods in my book
Cause you haven't seen
the best of me
I'm a woman and not just the tears
I won't make you please
Just stop, right now
