

Before and After

Stellar Kart

Looking back at mistakes made
You swore you'd never but you did anyway
And it feels like you're too late
And out of grace
Even though at times
You make my heart break
I still want you to know

There is nothing you could ever do
That could make me walk away from you, no
Before and after today
I love you the same

I've already forgotten
I forgave everything long ago
So if you fall
Fall in arms wide open
'Cause I won't let you go

There is nothing you could ever do
That could make me walk away from you, no
Before and after today
I love you the same
Love ... the cross is proof
Oh, that I will not give up on you
Before and after today
I love you the same

Even when you're not enough I am
Even when you can't I always can
From the start until the very end
Until the end

There is nothing you could ever do
That could make me walk away from you, no
Before and after today
I love you the same
Through all the highs and lows
I will never leave or let you go, no
Before and after today
Only one thing remains
More than words can say
I love you the same
I love you the same
