

Lose Control

Stellar Kart

The road ahead is going nowhere
Fast the light is red
Looks like i'm gonna crash
I've lost all direction
Right is left and up is down
So here's my soul confession
Right now check it out

I wanna lose control
I'm ready to let go
Call me crazy
I've made up my mind
To kiss the past goodbye
Come and change me

What took so long for me
To let you in
Was i too cool
To let you be my friend
I've given up completely
Everything is upside down
I need your love to lead me
Right now check it out
I've finally figured it out
What this life's all about
Know what i've gotta do
It's time to lose control to you
I wanna lose control
I'm ready to let go
Come change me
