

## Only Wanted

Stellar Kart

I watched you growing up living  
Out the dream I had in mind  
Until I messed it up  
Making you believe in what was mine  
I know I pushed too hard  
To make you more than who  
You really are  
Let's go back to the start  
I know I went too far I went to far

I only wanted you to have  
More than I could ever dream of  
I only wanted you to know  
Everything I know and then some  
I only wanted you to be more than  
I could ever become  
I only wanted, I only wanted you

So now we're far away holding on  
To miles that separate still  
Waiting for the day to say  
Its not too late, it's not too late

I know it's not  
What you want to hear  
Nothing makes up for all the  
Years I pray for the day you see  
I tried to raise you the best I  
Know how there's only one thing  
I can hope you don't end up  
Just like me
