

Rescue

Stellar Kart

I've been released from darkness
My life has been redeemed
Now I am found in you
You've pulled me
From the fire
For all eternity
My chains have been removed
My chains have been removed

My God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it out

Your blood has bought my freedom
No greater love than this
My king would die for me
Not even death could hold you
The battle has been won
My sins are washed away
My sins are washed away

My God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it out

My God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it out

Shout it out, shout it out
Shout it out, shout it out

My God, my hope, my rescue
My sins are washed away
My God, my hope, my rescue
My sins are washed away

Shout it out, shout it out

My God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it out

My God, my hope, my rescue
The cross has set me free
No power can stand against you
I'll shout it out, shout it out

Shout it out, shout it out
Shout it out, shout it out
Shout it out
