

## Shine Like the Stars

Stellar Kart

Is it real  
What you feel  
Do you burn inside  
Is it true  
Within you  
Is your spirit alive

Tell me why do you fear  
And try to disappear  
If you've got nothing to hide

Shine like the stars  
Wherever you are  
Wherever you go  
Be heavenly glow  
Shine like the stars

I hear you say  
You know the way  
Still you live like you do  
But compromise  
Only satisfies  
The dying part of you

Tell me why do you go  
On hiding when you know  
The world is waiting for you to

Don't fall down  
Don't burn out
