

Student Driver

Stellar Kart

Lets go

Two hands on the wheel of my fate
And sweat running down my forehead
And cars passing me like we're in a race
I don't know what danger lies ahead

'Cause I'm just a student driver
And I need your help to guide me
'Cause on my own I'm nothing

Looks like the road ahead might be rough to take
Oh, no, I've spun out of control
Good thing my passenger has a brake
And he knows exactly where to go

'Cause I'm just a student driver
And I need your help to guide me
'Cause on my own I'm nothing

Now, my right wheel is wobbling off
And my stereo is blown
But because I'm a student driver
This car is not my own

'Cause I'm just a student driver
And I need your help to guide me
'Cause on my own I'm nothing

'Cause I'm just a student driver
And I need your help to guide me
'Cause on my own I'm nothing

'Cause I'm just a student driver
And I need your help to guide me
'Cause on my own I'm nothing
