

## Love And Longing

Goodnight  
Tomorrow morning isn't far  
I will be interesting  
When you're alone and feeling bored  
I watched a city cry  
I thought I lost you in the fall  
I thought of everything  
I cannot lose you anymore

So won't you stay?  
I'm drowning in the rain  
Darlin' say the words  
And I will stay  
I'm drowning in the rain  
Darlin' say the words  
And I will stay the night

I'm just the trouble that you need  
I'm just a year away from when the future swallows me  
And when you're left behind  
It takes a lifetime to be seen  
Cause something happened here  
Somehow we're younger in our dreams

So won't you stay?  
I'm drowning in the rain  
Darlin' say the words  
And I will stay  
I'm drowning in the rain  
Darlin' say the words  
And I will stay the night

You're different  
And all the rest are the same  
Oh, you're different  
And all the rest are the same  
The same, stay the same

Cause something happened here  
It's not a worthless cause  
And I said so I can, so I can

Stay  
I'm drowning in the rain  
Darlin' say the words  
And I will stay  
I'm drowning in the rain  
Darlin' say the words  
And I will stay
