

Moongirl

stellastarr*

Outside, there's a spaceship
Blocks the sun
Forms a shadow hovering everything

Yesterday I had missed you
But today, there's a girl who shows me everything

I said, ohhh, she was the moment
I said, ohhh, she was the moment
I said, ohhh, she was the moment
I said, yeah, moongirl

Let's surf on the horizon
To the moon, where the world will look much clearer to me

One day I'll be finished
But today, there's a girl who shows me everything

I said, ohhh, she was the moment
I said, ohhh, she was the moment
I said, ohhh, she was the moment
I said, yeah, moongirl
