

My Coco

stellastarr*

Cool my brains and soothe my head
Stimulate me my Co-co-co
Sneak into my empty bed
And educate me my Co-co-co

In the summer in the spring
In public places my Co-co-co
On an island far away
Lemonade me my Co-co-co

And when I was down and failing life
You can't save me my Co-co-co
And when they said I'm telling lies
You believed me my Co-co-co

And through the noise I heard a song
You were singing my Co-co-co
And when you said that nothings wrong
I believed you my Co-co-co

But you were gone when I came through
And I remember you- first
When someday I'll dance with you
When I'm dreaming my Co-co-co

I sat alone and I didn't care
I sat two years in the same old chair
I saw three roads and I didn't know
Which way to go-go-go

I need some help from a little love
I need some help from a little above
And you were there I'm still in love
I wont forget Coco

I won't forget you Coco (3x)
I won't forget you no no (4x)

Because your my Coco, your my Coco, My Coco
Your my Coco, Yeah, my Coco
