

# You Don't Love Me

Stephanie McIntosh

I see the blue in your eyes  
Baby what are you hiding?  
I catch a glimpse of the truth  
And it don't look good, no  
I feel the ground fall away

As you fight back the tears  
And choke the words

You don't love me  
You can't say it  
After all this time  
You don't want me  
You can't mean it  
Tell me your lied  
Yesterday everything  
Seemed so ok  
How can it be that today  
You don't love me?

I thought that I really knew  
Who you were, baby  
But now my world is a mess  
And I'm going down  
I can't bear to believe

There's nobody else  
The reason is...

You've shattered my heart  
And you've left it for dead  
The truth is I've been misled  
You don't love me

How could we get so close  
And end up as strangers?  
How could something so good end up like this?

You've shattered my heart  
And you've left it for dead  
The truth is I've been misled  
You don't love me
