

# Starlight

Stephanie Mills

A love that shines so bright  
Seems, it seems that  
All seems right  
In starlight

Seems like magic when you hold me  
Let it be forever  
You're my special kinda rainbow  
You and me together

I-I-I-I-I-I believe in you  
We'll travel passed the sky tonight  
Your touch is starlight  
No love has ever been so bright  
Two hearts in the starlight

Shine  
Starlight (Mmm?)  
Your starlight  
On me

Shine (Shine)  
Starlight  
Your starlight  
On me

You're the keeper of my castle  
You're the hand that guides me  
And I call your name when I need you  
And you're there beside me

I-I-I-I-I-I believe in you  
We'll travel passed the sky tonight  
Your touch is starlight, oh  
No love has ever been so bright  
Two hearts in the starlight

Shine  
Starlight (Starlight)  
Your starlight (Starlight)  
On me (Why don't you shine)

Shine (Shine, shine)  
Starlight (Shine, shine)  
Your starlight (Shine)  
On me (Oh? oh?)

Shine (Shine starlight)  
Starlight (Oh, shine starlight)  
Your starlight (And you're a starlight, oh, God)  
On me (A starlight)

Shine (Shine)  
Starlight (Shine)  
Your starlight (Shine, oh?)  
On me (Why don't you shine)

Shine (Why don't you shine)  
Starlight (Shine starlight)  
Your starlight (You're a starlight, oh, Lord)  
On me (A starlight)

Shine (Shine)  
Starlight (Shine)  
Your starlight
