

## Save It For A Rainy Day

Stephen Bishop

Well she's kinda pretty, drives a big car too  
And when I hold her in my arms, I never know what to do  
She's got everything she needs, what does she need me for  
Just a crazy fool comin' back for more

And I know she's no good  
Can't blame her but I know I should  
Everybody says a watch out boy  
She'll break your heart like it was a toy

You better save it for a rainy day  
You better save it for a rainy day

Well I'd leave in a minute if I only could  
But when she touches me, it makes me feel so good  
My heart's in her hand this is sure a mess  
There's no way I say no, when she says yes, yes, yes

Take me, shake me  
And tell me this ain't a dream  
Everybody says a watch out boy  
She'll break your heart like it was a toy

You better save it for a rainy day  
You better save it for a rainy day

Save it for a rainy day  
You better save it for a rainy day

You better save it, save it for a rainy day  
You better save it, save it for a rainy day  
You better save it, save it for a rainy day  
You better save it, save it for a rainy day

You better save it, save it for a rainy day  
You better save it, save it for a rainy day  
You better save it, save it for a rainy day  
You better save it, save it
