## Save It For A Rainy Day

## **Stephen Bishop**

Well she's kinda pretty, drives a big car too And when I hold her in my arms, I never know what to do She's got everything she needs, what does she need me for Just a crazy fool comin' back for more

And I know she's no good Can't blame her but I know I should Everybody says a watch out boy She'll break your heart like it was a toy

You better save it for a rainy day You better save it for a rainy day

Well I'd leave in a minute if I only could But when she touches me, it makes me feel so good My heart's in her hand this is sure a mess There's no way I say no, when she says yes, yes, yes

Take me, shake me And tell me this ain't a dream Everybody says a watch out boy She'll break your heart like it was a toy

You better save it for a rainy day You better save it for a rainy day

Save it for a rainy day You better save it for a rainy day

You better save it, save it for a rainy day You better save it, save it for a rainy day You better save it, save it for a rainy day You better save it, save it for a rainy day

You better save it, save it for a rainy day You better save it, save it for a rainy day You better save it, save it for a rainy day You better save it, save it
