

# Walking On Air

Stephen Bishop

Like a bird flies from tree to treetop

On the wings of a special love  
I hear the sound of young hearts beating  
Love is never where you think, you'll find it  
All you need is the very first kiss

Then you're

Walking on air  
Love won't let you come down  
Walking on air

Your feet will never touch  
Walking on air  
Love has finally caught you

Love's a ride that can last a lifetime  
You find your heart in a warm embrace  
Then you can go around the world  
In just 5 minutes

There's so many ways to say you love her  
It's so easy, once you make the first move

Then you're

Walking on air  
Love has really hit you  
Walking on air

Your feet will never touch  
Walking on air  
And love won't let you come down

Love, love, love

How can you wonder if you really love her?  
It's so easy once you make the first move

Walking on air  
Love has finally hit you  
Walking on air

Your feet'll never touch  
Walking on air  
And love won't let you

Love won't let yo  
Love, love won't let you

Come down  
I'm walkin' on air

Love, love, love
