Like a bird flies from tree to treetop

On the wings of a special love I hear the sound of young hearts beating Love is never where you think, you'll find it All you need is the very first kiss

Then you're

Walking on air
Love won't let you come down
Walking on air

Your feet will never touch Walking on air Love has finally caught you

Love's a ride that can last a lifetime You find your heart in a warm embrace Then you can go around the world In just 5 minutes

There's so many ways to say you love her It's so easy, once you make the first move

Then you're

Walking on air Love has really hit you Walking on air

Your feet will never touch Walking on air And love won't let you come down

Love, love, love

How can you wonder if you really love her? It's so easy once you make the first move

Walking on air
Love has finally hit you
Walking on air

Your feet'll never touch Walking on air And love won't let you

Love won't let yo
Love, love won't let you

Come down
I'm walkin' on air

Love, love, love
