

Darlin' don't

Stephen Fretwell

How'd you like the sound of those four letter words?
They make me look so clever as I fall to the earth
I wanna walk through the morning
And I've not seen the night
I wanna hold on to you baby
And make you fell alright
If I could just draw a line under this stupid way of life
With two eyes open and two eyes feeling alright

How'd you like the sound of those four letter words?
Do they really make me look that clever as I fall to the earth?
Ain't it funny how you only ever seem to want what you can't have?
And that one little thing well it's driving you mad
I'd chase him round and build like that
With two eyes open and two eyes staring back

You say darlin'
You say darlin' don't
Lift my hand off your thigh and say darlin'
darlin' please don't

Darlin' would you come and stay with me tonight?
