

# Don't Stop Looking For Love

Stephen Gately

Been so long since I found someone  
You came as some surprise  
But I knew you were meant for me  
When I looked into your eyes  
So beautiful and strong  
Girl where did you come from  
As life passed me by  
You fell from the sky  
And I could hear you say

Don't stop looking for love  
It can be found  
In the strangest places  
Just when you've given up  
Along comes a miracle  
That turns your life around  
So don't stop, looking for love

Walking around with my head hanging  
Down, I felt so all alone  
And your love seemed miles away  
I was a heart without a home  
A woman in the rain  
You took the clouds away  
Now bright as the sun  
Our love has begun  
And I could hear you say...

Suddenly my dream had  
Come and rescued me  
I can't believe I finally reached the day  
Now I can say...
