

Give A Little

Stephen Gately

Give a little, take a little, pray a little
Give a little, you know you've got to
Take a little, just one more time
Pray a little, to make it happen

And I'd swear, I'd cross the road
But you'd avoid me
Please tell me, why?
It ain't fair, I'd call you up
But you won't answer
Just no reply

Too blind to see that ache inside
So have a heart, I'm begging you

Give a little, take a little, pray a little
Say you want to
Give a little, you know you've got to
Take a little, just one more time
Pray a little, to make it happen
Say you want me, girl

Somehow with every chance
I'll make you happy
You won't believe
Sing out loud with each and every
Waking moment
You'll fill my head

Give a little, take a little, pray a little
Say you want to
Give a little, you know you've got to
Take a little, just one more time
Pray a little, to make it happen
Say you want me, girl

Say you want me, girl
And wait and see
Too blind to see that ache inside
So have a heart, I'm begging you

Say you want me

Give a little, take a little, pray a little
Say you want to
Give a little, you know you've got to
Take a little, just one more time
Pray a little, to make it happen
Say you want me, girl
