

# Party Like You're Single

Stephen Jerzak

Make sure you're best dressed  
But not too over done  
Winter fresh breath  
We're gunna live it up  
Do what you want, cause it's just for tonight  
Party until we see the sun

Let's go out, cause we're all feeling it  
Leave life behind, no need to deal with it  
Do what you like, even if it's just for tonight  
Party until we see the sun

This isn't a slow dance  
So put up your hands  
This is our last chance to party  
This isn't a slow dance  
So put up your hands  
Put up your hands  
And party like you're single  
Party like you're single

Open invite, anyone can come  
We're on the guest list  
Everyone plus one  
You'll never know once you get in the zone  
Where the night's gunna go

Let's go out, cause we're all feeling it  
Leave life behind, no need to deal with it  
Do what you like, cause it's just for tonight  
Party until we see the sun

This isn't a slow dance  
So put up your hands  
This is our last chance to party  
This isn't a slow dance  
So put up your hands  
Put up your hands  
And party like you're single  
Party like you're single

I think I'm gunna pass out, my number  
I think I'm gunna black out, the lights  
Tonight, I'm not looking for a lover  
Whoa  
Not looking for a lover

This isn't a slow dance  
So put up your hands  
This is our last chance to party

This isn't a slow dance  
So put up your hands  
This is our last chance to party  
This isn't a slow dance  
So put up your hands  
Put up your hands

And party like you're single  
Party like you're single
