

## No Meat

Stephen Lynch

Vegan living, so healthy and clean  
So much brown rice, so many mung beans

And no meat  
Not one bite of meat  
Juicy meat  
Succulent meat.

Instead I get, gluten and sea weed stew.  
Rice milk and lentils and fuckin tofu  
I respect every creature from horse, fowl and owl  
I'd blow a goat for some bacon right now  
Yeah I'd blow a goat for some bacon, right now

You eat your southern fried chicken  
And I'll just have fruit  
How's that T-bone?  
No really, it's cool  
I'll just chew on this turnip root  
With a couple chick peas  
Kill me please

I'm tired of hummus  
And bulgur wheat  
Tofurkey tofuck yourself  
I want some meat  
I respect every creature the birds and the bees  
Well I'd eat the shit out some Whopper with cheese  
Believe me I'd fuck up that Whopper with cheese

(Whoa)alfalfa sprouts and a red bean  
A handful of trail mix  
Mmm what a treat  
How about some soy yogurt served in a bowl?  
I'd rather eat a hobo's asshole  
Yeah I'd rather eat a hobo's asshole
