

# Break Us Apart

Stephen Marley

Would you let them break us apart, would let them  
Would you let them break our hearts, would let them  
Would you let them break us apart, would let them  
Would you let them break our hearts, would let them

Together they can't break us we are strong,  
Divide us and the road leads to destruction,  
Don't you fall a pray to Babylon  
They want to pull us all in different directions,  
So they take you from the root and teach you their own truth,  
Open up your mind, please don't you be so blind,  
Nothing it for the faith, a million for the love,  
When it'all said and done (hold on) [x3] we're more than blood,

Would you let them break us apart, would let them  
Would you let them break our hearts, would let them  
Would you let them break us apart, would let them  
Would you let them break our hearts, would let them

Don't you lose your way, material couldn't make I change,  
We have love and happiness, so we'll be alright,

Would you let them break us apart, would let them  
Would you let them break our hearts, would let them  
Would you let them break us apart, would let them  
Would you let them break our hearts, would let them

Together they can't break us we are strong,  
Divide us and the road leads to destruction,  
Don't you fall a pray to Babylon  
They want to pull us all in different directions,  
So they take you from the root and teach you their own truth,  
Open up your mind, please don't you be so blind,  
Nothing it for the faith, a million for the love,  
When it'all said and done, we're more than blood,
