Get Down

Stephen Simmonds

She was sixteen, just a child it would seem, when the world too k her on Her beauty destroyed and turned men into boys drove their sense s beyond,

She was my all, I'm a brick in her wall, another book on her sh elf I'd run when she called, summer, winter or fall, I couldn't hel p myself

It's been a long time, but she's still on my mind, the way she moves should be a crime

Watch her get down (sweet lord) watch her get down (oh no) and she don't stop, she rock until your eyes are sore,

Watch her get down (sweet lord) watch her get down (oh no) maybe you got the shot, but you ain't ever gonna score

She's got the skills, dirty dreams are fulfilled, when she walk s in the room When will you learn, if you play you'll get burned, like a heat wave in June

Outside in the rain, broken hearts cry her name, until the earl y morn' She's heaven on earth, like perfection gave birth, let the word be born
