

Disappear

Stephen Speaks

In your eyes a moment ago
I saw fire and rain
Surely after you smiled at me
It all melted to pain
You cannot be true to me
Til you're true to yourself
When you say you have to leave
and put your heart on a shelf

What taught you that you have to run?
What inspires this fear?
When you start to feel something real
You always disappear
You have to disappear

Want to get inside of you
find what makes you tick
You can see i'm getting thin
And your walls are too thick
I've given my heart and mind
What more can I do?
You cash out anytime
See I'm getting through

What taught you that you have to run?
What inspires this fear?
When you start to feel something real
You always disappear
You have to disappear

I know you have dreams
Don't hold them inside
Take hold of your heart
And open it wide
I know you have fears
just push them aside
You'll never feel love
You've never tried

I know you have dreams
Don't hold them inside
Take hold of your heart
And open it wide
I know you have fears
just push them aside
You'll never feel love
You've never tried

I know you have dreams (2x)
don't hold them inside

What taught you that you have to run?
What inspires this fear?
When i show you something real
Please don't disappear
Don't disappear
