What'll She Look Like

Stephen Speaks

What'll she look like when she opens her eyes and sees what she wnats to see instead of this cold mirror's lies and all the pieces complete she says with a sign "I think I'm ready..." what'll she sound like when she opens her mouth and all the phrases sound right as they fall out and she says "yes" and she's not scared of the sound she says she's ready will she be soft will she be strong will she be ready to be wrong will she move too fast or wait too long will she look me in the eyes what'll it feel like when she opesn her heart and finds that there just might be a small missing part and whether with or without me she has to start getting ready what'll she look like when she opens here eyes will she see just what I see will it be a surprise to see that she hasn't changed, her eyes are just a little wider now and she's getting ready
