

Ain't It Always

Stephen Stills

Ain't it always
Ain't it always
Ain't it always
Ain't it always
Ain't it always

Ain't it always thrilling
To find a lover, understands
Ain't it always
Ain't it always

Ain't it always chilling
That you might lose her on the snap
Ain't it always
Stay there, arm away

'Cos people change
Never know what they might rearrange
Ain't it always
Ain't it always

Ain't it always trouble
Love somebody so hard
It's a trap
Ain't it always
Ain't it always

Ain't it always double
How much it hurts
She left you flat
Ain't it always

But the big thing was how she loved you
Nothing like anything you've ever seen
Ain't it always
Ain't it always

Ain't it always
Ain't it always

Maybe when she's willing, she knows the way
She'll come back
Ain't it always
Ain't it always

Ain't it always killing
Thinking back she's all of that
For that girl she's got you trapped
Four different kinds of heart attack

Ain't it always
Ain't it always
Ain't it always
Ain't it always
