

# Buyin' Time

Stephen Stills

Unless you believe in magic  
There ain't much left you can be  
A skeptic or a fool  
Have you been watching your TV

Incredible is all I think of  
Did I really see  
Wordless faces double talkin'  
A runnin' it down to me

About buyin' time  
Brother can you spare a dime  
And ain't it a crime  
How we got to buy time, yeah

People goin' hungry  
Ain't no jobs, they're in the street  
Nobody's got no answer  
They're just staring at their feet

Ain't no way about it  
Things are lookin' pretty bleak  
And everybody's scufflin' hard  
Tryin' to make ends meet

We're just buyin' time  
Brother can you spare a dime  
Ain't it a crime  
How we got to buy time, yeah

It happened once before, you know in 1932  
But now there's so many more of us  
There's something we gotta do

Something radical, something different  
Got to hit on something new  
America, the dream is lost  
And it's killin' me and you

We're buyin' time  
Brother can you spare a dime  
Ain't it a crime  
How we got to buy time

We're just buyin' time
