

## Grey to Green

Stephen Stills

Certain my heart too much impaired  
My life was fallin' into disrepair  
I was beginning to despair  
Of finding love at all

No one gave me a second look  
Fewer still knew of a good book  
She said "I would if I didn't  
Have to work so hard"

And her eyes turn green  
When she's feelin' love  
When she's feelin' bad they  
Turn blue

They're hazel  
When she works  
Until she sees  
That my love can change her  
Grey eyes back to green for me

Told me I caught her at her worst  
Saw the confusion and the hurt  
She felt that she'd been livin'  
With this curse for far too long

But in the twinkling of an eye  
Something between us laughed and cried  
As we began to see  
Indeed together we could fly
